

We, the undersigned, petition the Mendocino County Board of Supervisors to approve the proposed community-designed amnesty program aligned with AB2533 for unpermitted buildings, and halt code enforcement based on malicious complaints. Unless there is genuine harm to neighbors or habitat, shutting down unpermitted buildings causes severe financial harm and loss of housing for the most vulnerable members of our community – the elderly, disabled, single parents, and our hardworking low-income workers, most of whom serve our tourist industry. To give more permits to AirBnBs while shutting down unpermitted housing – creating more homelessness – is not sound County policy.
